

AYUSH SINGH

(+91) 7028378954 | ayushhrmsingh@gmail.com | <https://www.linkedin.com/in/ayush-hrm-singh/>

Recent graduate and passionate software developer with hands-on experience building full-stack applications, with a strong focus on back-end development. Detail-oriented, adaptable, and committed to continuous learning and technical growth.

EXPERIENCE

May 2024 – October 2024 (6 Months)

Software Development Engineering Intern | Videoschool Media

- Led the development of a comprehensive project management system for operations managers within the organization.
- Technologies used: LAMP (Linux, Apache, MySQL, Python), Flask, Jinja Templating, Bootstrap, HTML, CSS & JS
- GitHub: <https://github.com/AyushHRMSingh/Video-School-PMS>

PROJECTS

Plagiarism Checker | Python

- Python script to scan the list of documents with Grammarly's plagiarism checker and highlights plagiarized content.
- GitHub: <https://github.com/AyushHRMSingh/Plagiarism-checker>

Local LLM Web App | Python, Next.JS, Express.JS

- Developed an application with a two-tier architecture that allows users to host their own local LLMs (like Llama3.2, DeepSeek-R1 etc.) and access them from anywhere in the world (with built-in network tunneling).
- GitHub:
 - Backend: <https://github.com/AyushHRMSingh/LLama-Server>
 - Frontend: <https://github.com/AyushHRMSingh/LLama-Web>

Local LLM Discord Bot | C++

- Built a Discord bot using C++ that integrates with a locally hosted LLaMA-based LLM server to handle natural language queries via slash commands.
- Handled large LLM responses by implementing chunked message delivery using Discord's message API, ensuring compliance with the 2000-character limit.
- GitHub: <https://github.com/AyushHRMSingh/Discord-LLama-Cpp>

EDUCATION

June 2025

Bachelor of Computer Application | Amity University Mumbai

- Relevant Coursework: Python, PHP, C++, Java, DBMS, Dev Ops, Machine Learning, Soft Computing, Cloud Computing
- GPA: 9.31 (on a scale of 10)
- Minor in Business Management
